Tipton's Photographic Views

OF THE

Battlefield of Gettysburg

## To the Public.

---

Since the publication of my last Catalogue my facilities have been greatly increased. My printing light is one of the largest in the United States, enabling me to fill large orders promptly. The latest and best apparatus is used throughout, and every department—from operating to packing and mailing department—is thoroughly organized and complete.

Ever since the great battle in 1863 my personal attention has been devoted to photographing the Battlefield of Gettysburg, my negatives of the field alone numbering many thousands, in all sizes; and additions are made nearly every day.

The standard of excellence—which has gained for Tipton's Gettysburg views a world-wide reputation—will be fully maintained, and entire satisfaction in every respect guaranteed.

Mail orders have prompt and careful attention, and you can rely upon entire satisfaction in every case.

Should you visit the field, you are cordially invited to call at our sales-room. The Tourist will find it the most interesting place in Gettysburg, and is headquarters for everything in this line.

If you want information in relation to Gettysburg, drop me a line and I will take pleasure in serving you.

Respectfully,

**W. H. TIPTON.**

### ORIGINAL PHOTOGRAPHIC

## Groups taken on the Battlefield of Gettysburg,

By W. H. TIPTON, GETTYSBURG, PA.

The following groups (except those having a steady sale) are not kept in stock, but printed up to order only, orders can be filled in a few days after received.

When ordering, give number of subject and style of mounting desired, and, as numbers are duplicated in the different series in some instances, mention Part Third, or state that it is group that you want.

When the number is omitted in size column, the group is not made in the size under which the blank occurs. For styles of mounting and prices consult price list on page 2.

### A WORD TO THE VISITOR.

As a souvenir of a visit to the field of Gettysburg, nothing more desirable can be secured than a photograph of yourself or party at some historic spot.

I have made thousands of such plates every season since 1863, and am always prepared to go out at a moment's notice.

## PART FOURTH.

### Portraits and Reproductions.

The following subjects are kept in stock mounted only, but can be furnished unmounted on short notice.

In ordering from Part Fourth give number of subject, and state size and style of mounting desired. \*

When number is omitted in size column the photograph is not made in the size under which the blank occurs.

For styles of finishing and mounting consult price list on page 2.

Those marked \* can be furnished in Stereo size only, and those marked † in Cabinet size only.

### Tipton's Complete Photographic Establishment at Gettysburg

While in Gettysburg, not long since, we had the pleasure of being shown through the large and lately remodeled photographic establishment by Mr. Tipton. This fine gallery is located on Main street, third door from the Centre Square. The work of remodeling, which has enlarged it to more than three times its former size, is now complete. The salesroom contains the largest plate glass window in the town, and its numerous cabinets and cases are filled with etchings, engravings, battlefield views, frames, easels, albums, etc. Every room in the house is connected with the office by speaking tubes, and the whole building is heated from the basement. Gas and water is also introduced in every room; the second floor is devoted to operating, finishing and the chemical manipulation; the skylight, reception and toilet rooms are on the front of this floor; while the finishing room, mailing and packing department, negative dark room and laboratory are in the back. The third story is devoted exclusively to printing, washing and toning operations, and the manufacture of magic lantern slides. The printing light runs the whole length of the building and is one of the largest in the United States. This floor, like the second, has every convenience of heat, gas, water, speaking tubes, and is fitted up with ingenious water tanks and every other appliance necessary for conducting the business on a large scale. Mr. Tipton started in the business when but twelve years of age, and has been photographing in Gettysburg for thirty odd years. He has been the battlefield photographer ever since the battle of Gettysburg, and has retained and now has in his establishment many thousand negatives of the field in all sizes, and during this time one hundred thousand portrait negatives have accumulated. These negatives are all so systematically arranged that any of them can be found in less than five minutes. Besides doing the largest business in local portraiture and field views, this establishment has a large run on copying and enlarging, the mail trade, in consequence, being very large. Mr. Tipton is paying Uncle Sam more for postage than any other man or firm in the county. His work is not only sent into every State in the Union and Canada, but he makes frequent shipments to England, Russia, Australia, India and other points in the world.—*Independent*.
